Yan lived in Svatovskaya with his mother. On December 8, his mother left his house and went to her friend's house, where she was killed by a mortar shell. On January 2, the accompanying found her dead and completely naked in a neighboring yard. The neighbors said that she was not dressed when she was found. The day before the shelling, no one came to her. Aunt's mother's body was lying in a neighbor's yard, and Yan was forced to bury her in his own yard. The body was in a state of rigor. Due to the environment and the lack of tools, he could not dig a deep hole. He came to the gas and water gap in the Zhuravin hospital.
